

Programme

2nd – 27th of November

Gastronomy events in Adeje 2016

Degusta.me

This is the seventh year that Adeje has hosted the gastronomy programme, Degusta.me.

Our wish is to continue to let more people know about the gastronomy of the borough and reinforce local cooking and use of local produce. Many food-based establishments will be preparing food using original and individual recipes and we have also organised a full programme of activities with tastings, parties, workshops and talks for everyone in the family, from adults to the younger chefs.

The aim of these cookery displays and tastings is to promote the Adeje foodie culture and value the many food establishments and people who work in them in the borough adding to the quality of the tourist offer.

The programme of events is also designed to bring the richness and variety of Adeje gastronomy closer to the local population and visitors and give them the chance to enjoy what's on offer during the month of November.
